Subject: Volunteer Rescue Squads in Virginia Beach EMS Department

Dear Medical Supply Vendor,

The following Volunteer Rescue Squads ("Squads") are primary components of the Virginia Beach EMS Department ("Department"). Although each of the Squads is its own corporate entity, with its own bank accounts, its own procurement processes, and its own business account with you, it is also an official part of the consolidated Virginia Beach EMS System managed by the Department. Any attestations from the Medical Director of the Department authorizing the Department to buy EMS supplies from you is also intended to be an attestation from the Medical Director of each of the Squads authorizing the Squads to buy EMS supplies from you. To ease the administrative burden on our joint Medical Director and our consolidated system, we ask that you recognize and honor this arrangement, and allow the below Squads to buy EMS supplies from you under the same authorization(s) that apply to the Department:
